General unitholder tax information for unitholders holding units on the South African sub register

The Fund and its management arrangements are structured to meet the required criteria to be classified as an Attribution Managed Investment Trust for Australian tax purposes. As an Attribution Managed Investment Trust, the Responsible Entity will be required to withhold tax on Australian sourced income at a concessional rate of 15% on fund payments (or 10% for certain fund payments from a Clean Building MIT) to individual and institutional unitholders in South Africa and certain other jurisdictions with an exchange of information ("EOI") agreement with Australia. Distributions of Australian sourced income to investors that are not resident in EOI jurisdictions will be subject to withholding tax at the rate of 30%.

The New Zealand sourced income is subject to the corporate tax rate in New Zealand of 28%, and is not subject to Australian withholding tax.

The proportion of the payment in respect of the year ended 31 March 2020 which is attributable to a fund payment from a Clean Building MIT is nil AUD cents per unit.

The effect of these taxes on the Fund's distribution has been to reduce the rate to 2.37604%, equivalent to 0.10224 AUD cents per unit, through certain deductions such as depreciation. Thus, tax of 0.10224 AUD cents per unit will be withheld from the distribution accruing to unitholders and will be paid to the Australian Taxation Office for Australian sourced income.

South African unitholder tax implications

The distribution is regarded as a foreign distribution for South African unitholders.

The distribution comprises gross income, and is to be taxed as such, in the hands of South African unitholders. The pre-tax distribution is to be included in a unitholder's taxable income and subject to normal tax in full. Tax paying unitholders will be able to claim a rebate equivalent to 2.37604%. Non-tax paying unitholders will not be entitled to claim a rebate.
