### Introduction

Investec Australia Property Fund ("the Fund") listed on the JSE on 23 October 2013, as the first inward listed Australian real estate investment trust. The Fund offers investors exposure to the direct Australian property market, as well as providing exposure to the Australian dollar.

The Fund currently comprises nine properties in Australia with a total gross lettable area ("GLA") of 54,249m<sup>2</sup> independently valued at AUD 154mn.

The fund as at 31 March 2014 had an AUD equivalent market capitalisation of AUD 162mn and has delivered unitholders a total ZAR return of 26% since listing, out performing its peers in South Africa and Australia.

The objective of the Fund is to grow and diversify its asset base and to optimise capital and income returns over time for unitholders by investing in high quality commercial real estate assets (office, industrial and retail) that posses the following qualities

- positioned in well located commercial precincts in Australia and New Zealand
- medium to long term lease profiles
- limited or no short term capex requirements
- contractual rental growth
- strong tenant covenants

#### Financial Results

The board of directors of Investec Property Limited ("IPL") is pleased to announce the Fund's maiden distribution since listing of 3.42 cents per unit pre withholding tax and 3.20 cents per unit post withholding tax, which equates to an annualised distribution yield of 7.6% pre withholding tax and 7.1% post withholding tax. These results exceed the distributions disclosed in the Pre-Listing Statement dated 25 September 2013 ("PLS").

This performance is underpinned by the strength of the portfolio's property fundamentals, cost containment and the Fund's efficient capital and interest rate management.

Whilst the results presented in this report cover the 15 month period from 12 December 2012 (being the date the Fund was established) to 31 March 2014, the period relevant to unitholders is from the listing date to 31 March 2014. For the period prior to this, 12 December 2012 to the date of the listing, a pre listing distribution of AUD 1.86mn was paid to Investec Bank (Australia) Limited ("IBAL"), which was the sole unitholder in the Fund prior to listing.

#### **Properties**

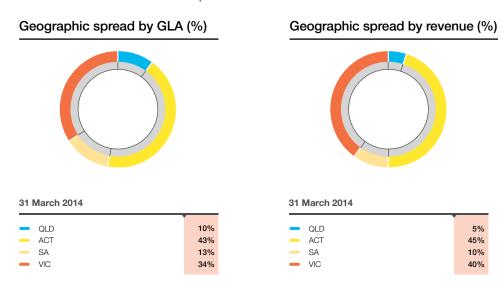

The Fund is anchored by a core portfolio of 9 quality well located properties. The strength of the property fundamentals are evidenced by a long dated WALE of 7.3 years with 59% of leases expiring after 5 years, vacancies of 0.5%, strong tenant covenants and attractive rental escalations of approximately 3.5%.

# Geographic spread

The fund has a well diversified geographic spread and will continue to invest in properties that are well located in major metropolitan cities and established commercial precincts.

### Sectorial spread

The fund's sectoral exposure to date is mixed between office and industrial. The fund will consider investments in retail, however no opportunities to date have met the investment profile of the fund.

# Tenant profile

The Fund has a high profile tenant base with 80% of the portfolio comprising of A Grade Tenants. The Fund also has 58% of the portfolio represented by single tenant users, with the remaining 42% of multi tenanted buildings only being occupied by a total of 8 tenants.

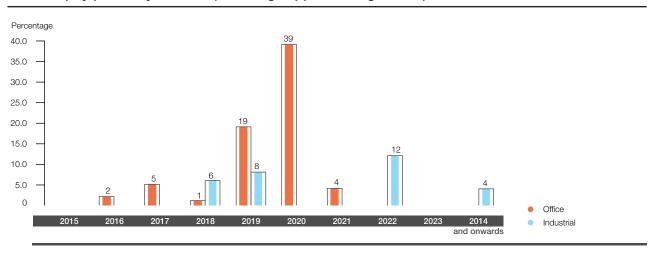

#### Vacancy levels

At 31 March 2014, the property portfolio had 0.5% vacancy (after taking into account the income support arrangements over 0.5% of the GLA, there is no vacancy).

#### Lease expiry profile by sector

# Lease expiry profile by revenue (including support arrangements)

The lease expiry profile reflects the quality and sustainability of the Funds net property income

#### Cost to income ratio

The Funds low gross cost to income ratio of 14.8% has been achieved by:

- effective cost containment;
- large percentage of triple net leases; and
- the large percentage of single tenant buildings or multi tenant buildings with less than 5 tenants.

### Acquisitions

The capital raised on listing provided the Fund with debt capacity to acquire approximately AUD 70mn of properties before it reached the mid range of its desired gearing ratio of 35%. The Fund has to date completed 2 acquisitions totaling AUD 46.8mn, resulting in the deployment of approximately 70% of its acquisition debt capacity (including costs). The acquisition of the Greenway property referred to below was completed and announced on 15 May 2014 and is reported as a subsequent event.

Property name	Geography	Effective date	Sector	Value	GLA m²	Yield*	WALE (GLA)
Eight Mile Plains	QLD	14 March 2014	Office	20 954 000	3 568	7.74%	6.2
Subsequent to 31 March 2014							
Greenway	ACT	15 May 2014	Office	25 805 000	5 403	7.40%	9

<sup>\*</sup>After transaction costs

The acquisitions complement the existing property portfolio and contribute to the strength of the existing property fundamentals. The Eight Mile Plains Property was an off market transaction sourced through Investec's network, illustrating the funds ability to secure quality properties in a highly competitive environment.

The acquisitions have been funded with debt from the Fund's existing Westpac facility, the details of which are included below.

The acquisitions are accretive to the Fund due to the current positive spread of property yields over the cost of debt, which is primarily due to the current favourable interest rate environment in Australia.

The Fund has an attractive pipeline of acquisition opportunities which are expected to be earnings accretive and will compliment the profile of the existing property portfolio.

#### Fair value adjustment of investment property

The Fund's policy is to value investment properties at year-end, with independent valuations performed on a rotational basis to ensure each property is valued at least every 18 months by an independent external valuer (in compliance with the Fund's debt facility). Where directors' valuations are performed, the valuation methods include using the discounted cash flow model and the capitalisation model.

Independent external valuations were obtained for all of the Fund's investment properties in February and March 2014. The Fund recorded a gross valuation uplift across the portfolio of 0.7%.

#### Capital funding

On 23 October 2013 the Fund raised capital by way of a private placing of 112 685 000 units at AUD 1.00 each. The private placing was significantly over subscribed.

The proceeds of the private placing were used to acquire the Punt Road Property and the Elizabeth Street Property (which both transferred on 25 October 2013) and to repay the debt on the balance sheet prior to the listing and private placing.

Prior to the private placing the Fund was wholly owned by IBAL and had 22 000 000 units in issue.

The Fund now has 134 685 000 units in issue, which were issued at AUD 1.00 per unit.

The Fund has secured a debt facility with Westpac Banking Corporation – one of Australia's largest banks. At period end the facility had a limit of AUD 26 8mn which can be increased to AUD 125mn subject to financier approval and other conditions being met. The facility is for a 3 year term from April 2014 and the Fund will hedge at least 75% of its interest rate exposure. The Fund recently secured a 20 basis point decrease in pricing which is set out below:

At 31 March 2014	Expiry	Rate	Amount AUD'000
Facility			
Westpac	Apri – 17	BBSW + 150 bps	125 000
Total facilities			125 000
Drawn down at 31 March 2014			22 290
Available facilities (subject to financier approval)			102,710

The Fund's gearing ratio remained low at 14.4% at period end and increased to 26.8% subsequent to post year end on the completion of the Greenway property acquisition. The gearing remains below the stated range in the PLS of 30% to 40%, providing headroom to pursue further acquisitions.

The Fund has hedged 100% of its current interest rate exposure at a base rate of 3.19% for 3 years. The all in cost of funding at period end was 4.69%.

### Related party transactions

IPL is the responsible entity of the Fund. Investec Property Management Pty Limited ("IPML") is the manager of the Fund. Both IPL and IPML are wholly owned subsidiaries of IBAL.

Prior to the sale all of the non-sale assets (including IPL and IPML) will be transferred out of IBAL to another wholly owned Investec Group entity. Investec will continue its property business in Australia. The IBAL support arrangements will be transferred to an Australian Investec Group entity. This entity will be capitalised by Investec Bank Plc to the extent necessary to fulfil the needs of all ongoing businesses and to honour all commitments, including the income support arrangements. As such, the transaction will have no impact on the Fund, IPL or IPML.

#### Changes to the board

David Gonski resigned from the board of IPL effective 31 March 2014.

#### **Prospects**

The Fund is well positioned to continue with the execution of its strategy outlined to investors on its listing on the JSE. The existing property portfolio consists of well located properties, 99.5% let (before taking into account the income support arrangements over the remaining 0.5% of the GLA) with income underpinned by strong tenant covenants, with a WALE of 7.3 years and embedded contractual escalations. The underlying property portfolio is expected to perform in line with forecasts provided in the PLS and the forecasts provided in relation to the recent completed and announced acquisitions.

The strength of the underlying property portfolio allows management to focus on its pipeline of prospective acquisitions, which consist of both on and off market opportunities which in the current favourable interest rate environment can be funded at attractive pricing. The Fund's balance sheet is well capitalised to take advantage of these opportunities.
