Mandatory Statement

Collective investment schemes are generally medium to long-term investments. The value of participatory interests or the investment may go down as well as up. Past performance is not necessarily a guide to future performance.

Collective investment schemes are traded at ruling prices and can engage in borrowing and scrip lending. The schedule of fees and charges and maximum commissions is available on request. A detailed description of how performance fees are calculated and applied is available on request. No guarantee is provided with respect to the capital or income return of the scheme.

Objectives of the Scheme

The objectives of the scheme are to:

- grow and diversify the scheme's asset base with investments offering attractive income and capital growth profiles which will also spread investment risk;
- offer investors sustainable growth in income and capital appreciation across a sectorally diversified portfolio; and
